Before you begin

Plug in for power
• AC OUTLET POWER SUPPLY:
  • The AC power plug is polarized (one blade wider than the other) and only fits into the AC power outlets one way. If the plug will not fit into the outlet completely, turn the plug over and try to insert it the other way. If it still does not fit, contact a qualified electrician to change the outlet, or use a different one. *Do not attempt to bypass this safety feature.*

Battery back-up operation
• The power failure protection circuit will not operate battery to be installed.
• When the battery backups function, the digital display will not light, however, the wake function will still operate during the power interruption if remaining battery power is adequate.
• Normal operation will resume after AC power is restored so you will not lose your current time or wake.

To install the battery:
1. Remove battery compartment door (located at the back of the device) by applying thumb pressure to the tab on battery door and then lift the door out and off the cabinet.

To replace the battery:
2. Connect a 9-volt battery (not supplied) to the connector plug.
3. Replace the compartment door.

Troubleshooting:
• Resident or relocate the residence.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer of an experienced radio/TV technician for help.

WARNING: TO PREVENT FIRE OR ELECTRICAL SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

FCC information
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Some of the following information may not be applicable to your product, however, as with any electronic product, precautions should be observed when handling and use.

Before using the product, please follow and follow all warnings and adhere to the safety precautions located on the product and in the instructions that accompany the product.

Do not expose product to rain and do not use near water; such as, in the bathroom. Do not use this product in the rain. Rain or moisture may prevent air flow through vent openings.

Do not expose product to extreme temperature conditions, such as leaving it in a hot, car for an extended period of time.

Do not expose product to condensation. Condensation may be harmful to electrical components.

Do not expose product to dust or dirt, as this may prevent product from functioning properly.

It is important to read this instruction prior to using your new product for the first time. Please read and save this instruction for future reference.

WARNING: TO PREVENT FIRE OR ELECTRICAL SHOCK HAZARD, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

IMPORTANT SAFETY INSTRUCTIONS

This product is designed and manufactured to operate within specified operating conditions. The user's manual contains operating instructions. Failure to follow these instructions may be hazardous or result in reduced product life.

AC OUTLET POWER SUPPLY:

• The AC power plug is polarized (one blade wider than the other) and only fits into the AC power outlets one way. If the plug will not fit into the outlet completely, turn the plug over and try to insert it the other way. If it still does not fit, it may not be a safety plug and may not fit in the outlet properly. Try another outlet. *Do not attempt to bypass this safety feature.*

Battery back-up operation
• The power failure protection circuit will not operate battery to be installed.
• When the battery backups function, the digital display will not light, however, the wake function will still operate during the power interruption if remaining battery power is adequate.
• Normal operation will resume after AC power is restored so you will not lose your current time or wake.

To install the battery:
1. Remove battery compartment door (located at the back of the device) by applying thumb pressure to the tab on battery door and then lift the door out and off the cabinet.

To replace the battery:
2. Connect a 9-volt battery (not supplied) to the connector plug.
3. Replace the compartment door.

Troubleshooting:
• Resident or relocate the residence.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
